Blending Quality, Value & Service since 1921

withamgroup.co.uk

Estate Oils & Lubricants

Oils and lubricants play a vital role in keeping equipment, vehicles and machinery in tip top condition and help protect the life span and efficiency of their working parts. Estate equipment and machinery is often used all year round in all weathers and challenging conditions and these products are designed using the latest technology, helping reduce wear and tear, avoid corrosion and enhance smooth operating performance. Many of our products are biodegradable and safe for forestry, water ways and agricultural areas, and we are proud that the lubricants we make are blended in a unique carbon neutral way, so in turn helping your own sustainability goals be achieved.

LAWN MOWER OILS

Lawn Mower 30

This mineral based SAE 30 viscosity grade engine oil is specifically designed for many air cooled lawnmower engines. This viscosity grade is recommended by many of the leading lawnmower manufacturers.

Meets the following Specifications:

API CG-4/CF/CF-4, API SG MB 228.1, MAN 271.

Available in a choice of 1, 5 & 25 litres.

Lawn Mower 10W-30

This mineral based SAE 10W-30 viscosity grade product is recommended where a multigrade engine oil is required. Incorporating additives that protect and keep clean internal components this product has numerous horticultural applications.

Meets the following Specifications:

API CH-4, API SJ.

Available in a choice of 1, 5 & 25 litres.

CHAIN OILS

Enviroyl Biodegradable Chain Saw Oil

This environmentally friendly chain saw oil has special tacky properties and is suitable for all chain saw, horticultural and specialist forestry equipment.

Benefits: A biodegradable product in place of a mineral oil without compromise on quality or performance. ISO viscosity 100.

Available in a choice of 1, 5 & 25 litres.

Chain Oil

Qualube Chain Oil is a high quality lubricant containing a dedicated "Anti-Sling" additive manufactured to an ISO 100 viscosity grade which both lubricates and protects the chain.

Available in a choice of 1, 5 & 25 litres.

Clear Chain Spray

Qualube Clear Chain Spray Lubricant is a specially formulated oil in aerosol form for the lubrication of all types of chains. Protects chains against rusting and corrosion. Contains non-fling additives to resist fly-off from chain.

Available in a handy 400ml spray can.

TWO STROKE OIL

Qualube Two Stroke Oil

Qualube Two Stroke Oil is a high quality lubricant which is formulated to reduce engine deposits and smoking. It offers high revving motors excellent detergency and lubrication. Ideal for strimmers, chainsaws and many other horticultural machinery.

Meets the following Specifications:

API TC, JASO FB, ISO-L-EGC, JASO FC, ISO-L-EGD, JASO FD.

Available in a choice of 1, 5 & 25 litres.

ENGINE & AGRICULTURAL OILS

Using only the latest technology, our range of impressive engine oils are designed to enhance the performance and longevity of engines day in day out. All our lubricants ensure that OEM warranty conditions are not jeopardised and servicing costs are kept to a minimum. Tried and tested, our reputable products can genuinely help avoid breakdowns, reduce CO2 emissions, improve fuel economy and prevent wear and tear, ensuring smooth operation.

Quad Bike Engine Oil 10W-30 & 10W-40

Qualube MCEO 10W-30 & 10W-40 are dedicated 4T motorcycle engine oils, suitable for both water and air cooled motorcycles and All Terrain vehicles (ATV's) such as quad bikes. Manufactured to the JASO T903: 2011 MA2 specification, both products provide outstanding protection and performance in all sorts of conditions.

These products demonstrates outstanding deposit control compared to a standard car engine oil, ensuring the narrow oil ways within the engine are kept clean and clear. The needs of ATV's are distinct in that the requirements are for the fluid to lubricate the gearbox as well. ATV oil temperatures will often exceed those in cars, requiring better thermal stability to minimize oil degradation and deposit formation.

Generally ATV's also run at higher speeds, outputs and higher temperatures, hence higher lubricity performance is vital to reduce metal to metal friction and heat generation so providing better operating temperatures.

Available in a choice of 1, 5 & 25 litres.

Qualube Universal Oil 20W-30

As specialists in agricultural lubricants, our range of universal products provide reliability and compatibility to the modern farmer and estate owner whatever the age and size of their vehicles and machinery.

This 20W-30 viscosity grade product is specifically blended to meet the needs of small compact tractors and vintage tractors that require a fluid that will protect the engine and transmission without the harsh detergents & dispersants found in their modern equivalents.

Meets the following Specifications: API CC, API SF.

Available in a choice of 1, 5 & 25 litres.

Qualube Qualsyn MS FS 5W-30 C3

Qualsyn MS FS C3 5W/30 can be used in a wide variety of 4x4's, passenger cars and light commercial vehicles. The formulation has a proven track record within these sectors and has given many years of trouble free performance across a wide variety of driving conditions.

Meets the following Specifications: ACEA C2/C3, Dexos 2, MB 229.51, BMW LL 04, API SN, MB 229.31, Renault RN0700, Renault RN0710.

Available in a choice of 1, 5 & 25 litres.

Qualube Extremol 15W-40

This high performance, heavy duty Agricultural Tractor Engine Oil for diesel engines, which is formulated using advanced Group II base oil technology and enhanced additive systems and manufactured to give exceptional performance whatever the conditions. This product gives constant protection against deposits that build up from fuel combustion and is ideal for use in heavy duty diesel engines in severe on and off highway applications. This product is recommended for use in vehicles fitted with advanced exhaust after treatment systems it has been developed to maximize the life of the particulate trap filter, it is backwards compatible and therefore may also be used in older engines. Qualube Extremol FS 15W-40 meets a wide range of OEM and industry specifications allowing it to be used comfortably across mixed fleets.

Meeting the following specifications: API CK-4 & CJ-4, ACEA E7 & E9, API SN, Volvo VDS-4, Volvo VDS-4.5, Renault VI RLD 3, Renault VI RLD 4, MAN 3275, MAN 3575 Cat ECF-3, JASO DH-2, Deutz DQC-III 10LA, Cummins CES 20081/86, MACK EO-O Premium Plus, MACK EOS 4.5, Ford WSS M2C171-E, Ford WSS M2C171-F, MB 228.31, Detroit Diesel DDC93K218, Detroit Diesel DDC93K222.

Available in a choice of 1, 5 & 25 litres.

Qualube Agri-Supreme 10W-30

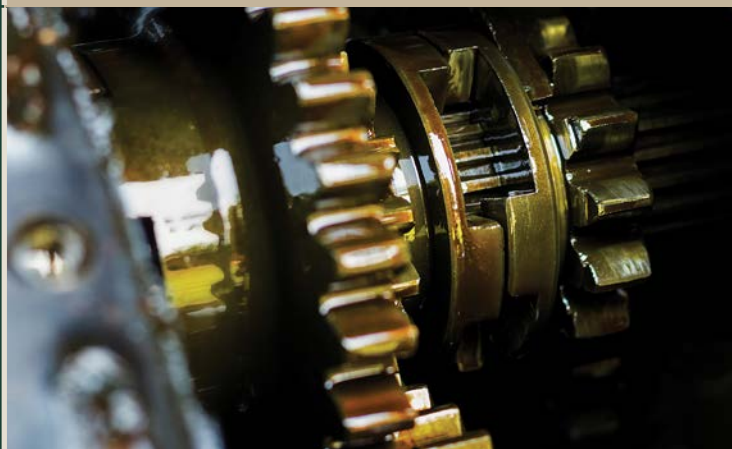

Modern tractors are extremely sophisticated and place ever increasing stress upon the lubricant including extended drain intervals and working hours. Agri-Supreme has been formulated to perform under arduous conditions.

Meets the following Specifications: NH 82009201, MF CMS M1135 M1139/M1144, MF CMS M1145, Ford M2C-159B/C, John Deere JDM J27, NH030C, Ford M2C-86B, Sperry Vickers/Eaton M2950S, Sperry Vickers/Eaton I-280-S, Sauer Sunstrand/Danfoss: Hydrostatic Trans Fluid, API GL-4, API CE/SF, Allison C-4, API CF, CF-4, CG-4 Caterpillar TO-2, MAN 271, MAT 3525.

Available in a choice of 1, 5 & 25 litres.

GEAR & TRANSMISSION OILS

Syntogear TDL 80W-90

This cost effective TDL (total drive line) product covers many tractor manufacturers specifics and can be used in both transmission and differential applications. This fully synthetic product allows greater rationalisation and can often replace multiple dedicated gear and differential lubricants.

Meets the following performance levels: API GL-4, API GL-5/API MT-1, MAN 341 Type Z-2, MAN 342 Type M2, MB 235.0, ZF TE-ML 02B, ZF TE-ML 05A, ZF TE-ML 12L, ZF TE-ML 12M, ZF TE-ML 16B, ZF TE-ML 16C, ZF TE-ML 16D, ZF TE-ML 17B, ZF TE-ML 19B, ZF TE-ML 21A, Scania STO 1:0.

Available in a choice of 1, 5 & 25 litres.

Wet Brake Transmission Oil - WBTO

Used in a wide variety of tractor transmissions Qualube W.B.T.O. also incorporates both gear and hydraulic capabilities and is often used in axles where wet brakes are present. In addition to its agricultural applications W.B.T.O. is often used in many industrial loaders and boom handlers making it an extremely versatile product.

Meets the following Specifications: John Deere J20C & J20D, Ford M2C 86C, Ford M2C 134C & D, CNH 3525, 3526 & 3505, MF 1143, Case MS1204, 1206, 1207, 1209 & 1210, Cat TO-2 JCB Gear Oil HP Plus, API GL-4 MF 1127A & B, FNHA-2-C-201.00 & FNHA-2-C-201.00A, New Holland 41-B, Kubota UDT, ZF-TE-ML 03E, 03F, 05E, 05F, 06K, Allison C-4 Valtra G2-08, Sperry Vickers/Eaton M-2950-S & M-2952-S, Sperry Vickers/Eaton I-286-S, Sauer Sunstrand/Danfoss: Hydrostatic Trans Fluid, AGCO Power Fluid 821XL, Volvo VCE WB101.

Available in a choice of 1, 5 & 25 litres.

GREASES

Lithium Complex

This NLGI.2 grease is used in applications where high temperature and load carrying is required. It also incorporates a tacky additive to give excellent resistance to water. Often used as a general purpose grease where washing down is frequent.

Benefits: Exceptional mechanical stability extends re-lubrication intervals • Excellent oxidation stability provides lasting lubrication at high temperatures • Excellent load bearing properties and anti-wear performance • Good corrosion resistance protects components operating in wet and arduous conditions. Available in a choice of 400g, 3, 12.5 & 50Kg.

Lithium Extreme Pressure 2 Grease

An extreme pressure NLGI.2 grease, this multi-purpose product is specified by many manufacturers.

Benefits: Excellent extreme pressure and anti-wear performance • High degree of corrosion protection • Highly versatile multi-purpose grease • Excellent pump-ability properties.

Available in a choice of 400g, 3, 12.5 & 50Kg.

HYDRAULIC OIL

Hydrapower HV46

A superior ISO 46 grade hydraulic fluid suitable for use in most hydraulic systems where a High Viscosity Index lubricant is required, such as self-propelled harvesters, hydrostatic drives, hedge cutters, topper mowers and where heat and wear is a problem. This product is formulated using very high Shear Stable VI improvers in order to meet the high demands of Poclain Hydraulics amongst others.

Meets the following Specifications: ISO 11158 HV (replaced AFNOR specs), ISO20763, DIN 51524 Part 3, ASTM D6158, General Motors LS 2 LH Series, SAE MS1004, Bosch Rexroth RE90220, JCMAS PO41HK, Vickers Product, Eaton Brochure 694, ANSI/AGMA 9005-E0-2-RO, Parker Denison HF-0, AIST 126/127, MAG IAS LLC, SEB 181222, Poclain Hydraulics Installation Guide Hydraulic Motors 15/12/2010 HV category. Available in a choice of 1, 5 & 25 litres.

ANTIFREEZE & COOLANTS

Blue Antifreeze

Qualube Blue Antifreeze is a general purpose antifreeze, based on silicate and nitrate inhibitor technology. It is a Mono Ethylene Glycol (MEG) based antifreeze and summer coolant, that provides maintenance free protection against freezing and boiling, but also gives excellent corrosion protection in cooling systems when mixed with the appropriate amount of water. Often used in older vehicles or applications where a modern long-life coolant is not required, Qualube Blue Antifreeze provides a high level of cost effective protection to cooling systems and is conformable to British Standard BS6580:1992 and BS 6580:2010. Available in a choice of 1, 5 & 25 litres.

Qualguard ORATEC 50/50 Coolant

Qualguard ORATEC 50/50 Coolant has been specially designed for heavy-duty engine coolants and may be used with confidence in engines manufactured from cast iron, aluminium or combinations of the two metals and in cooling systems made of aluminium or copper alloys. Qualguard ORATEC 50/50 Coolant is suitable for petrol, diesel and natural gas powered automotive and industrial engines.

This is a pre mixed ready to use product used as a cooling and heat transferring fluid in combustion engines and in particular for heavy duty applications. Excessive heat is transferred via the fluid to the radiator where the mixture is cooled by means of airflow. This is a phosphate-free ethylene glycol coolant based on low silicate technology in combination with nitrite and molybdate. This Hybrid Coolant provides maintenance free protection against freezing and boiling and offers many benefits to the engine:

- Effective corrosion protection
- Excellent pitting protection for wet sleeve cylinder liners
- Aluminium protection high performance additives
- Uniform and homogenous protective layer engineered low-silicate inhibitor package
- No gel formation or drop out performing silicate stabilizer
- No scale formation phosphate free

Available in a choice of 1, 5 & 25 litres

The Natural High Performance Lubricant

Award Winning Natural Lubricants

HELPING YOU AND YOUR BUSINESS BECOME MORE SUSTAINABLE

In recent years there has been a global move towards more environmentally safe and sustainable products and people are increasingly demanding more environmental alternative lubricants and greases. Prolan lubricants are truly remarkable long lasting, non-toxic and water safe products, which give outstanding lubricating results, reduce wear and save time and money on the usual multiple re-applications.

Prolan is an ideal lubricant range with unlimited use and helps significantly in the ongoing fight against corrosion, and reducing wear and tear. It is easy to apply and can increase machinery and equipment life and yet is the safer, greener and cleaner way to apply lubrication that will not leave any nasties for the user or the environment.

Outstanding Performance

Prolan products are made with lanolin derived from sheep's wool. Lanolin is a powerful natural product often known as 'wool grease' and has been used for centuries as a natural moisturiser and protector. Raw lanolin is a natural substance secreted by sheep to provide a protective coating on their fleece for protection in harsh conditions. Once the sheep have been shorn, the fleece undergoes a scouring and refining process to extract the lanolin and to clean the fleece.

Lanolin's strong lubricating and protective qualities have been used to outstanding effect in many industries, particularly on metal surfaces and moving parts, by forming a long lasting natural barrier that protects and prevents corrosion. Its unique formula enables the lubricants to stay in place and not evaporate. They are not washed off or displaced by salt water spray, which sets them apart from traditional petroleum based lubricants.

Environmentally Safe

Our planet is under threat from the long term use of chemicals. Many customers require a high quality lubricant but now wish to have a more environmentally safe product on their machinery to protect their staff and the environment in which they work. Lubricants and other chemicals can affect areas such as agricultural fields, waterways and forests. Prolan products are non-toxic, non-carcinogenic and biodegradable – making them safe for the environment and good for health and well-being.

Non-Toxic & Non Carcinogenic

Prolan lubricants have gained a number of International Food Safety Approvals and in the UK are NSF approved for both H1 and H2 requirements. This means they are certified as approved 'food-grade lubricants'.

The range is especially suitable for sensitive environments such as forests, waterways, food manufacturing, horticultural, agricultural and marine locations as well as a long lasting easy to use general lubricant for around the workshop or home. Prolan is an excellent wood preserver as it has added linseed which protects the wood from moisture, rot and greening. It is a safe alternative to Creosote. Using the correct lubricant in these sensitive situations is clearly crucial.

Fights Against Rust

Powered by New Zealand based lanolin experts, this product range has been formulated by qualified engineers and lubricant specialists who understand the corrosion problems encountered by many industries. The key fact is that the environmentally friendly elements of this lubricant range do not compromise their performance.

This range of products can be used in absolutely any industry and has won many awards for its many innovative environmental applications.

"We have been very impressed with Prolan and apply it to our farm machinery to prevent corrosion and extend its usable life. It is so versatile and cost effective - I would recommend Prolan to everyone." Ben Bowerman - Godlingston Manor Farm, Dorset

PROLAN LUBRICANTS - OUTSTANDING PERFORMANCE

Rust Prevention

Electrical Preservation

Wood Protection

Machinery Performance

Lubricating & Water Repellent

Stays on In Harsh Conditions

Cavity Protection

Anti-Corrosive

AVAILABLE IN 5 STRENGTHS & VISCOSITIES

All viscosities are non-carcinogenic, non-toxic, biodegradable, environmentally friendly and internationally certified by NSF for worldwide certification in food processing industries. Prolan lubricants are easy and safe to apply by either using an aerosol, trigger pack sprayer, paint brush or simply wiping onto surfaces as required by the type of viscosity.

PROLAN EXTREME
1, 5 AND 25 LITRES

PROLAN ANTI-SEIZE
100ML, 500ML AND 4 LITRES

Field Fare

Our knowledge of having to supply and deliver the highest performance lubricants that make a real difference to machinery application, has driven us to produce a new high-quality range of Gun Oils and Gun Barrel & Choke Cleaner, ideal for game or clay shoots, plus other firearms.

The Gun range includes the highest quality oils with an award winning, environmentally safe, biodegradable option which has outstanding lubricating qualities without all the nasties. The gun cleaner helps remove harmful deposits that can build up inside and impair the firing accuracy.

In addition we can now offer choices of pheasant and game feeders, painted in a countryside green to help camouflage the look of the feeder drums, or a traditional feeder, and our very own top up green paint which is easy to apply to top up the paint coverage over the years ahead and keep them looking in tip top condition.

GUN OILS

Witham Gun Oil

Is the highest quality, light viscosity, mineral lubricating oil, which offers sympathetic but powerful protection to all conventional metals, wood stocks, plus gold and silver inlays and suited to all types of sporting guns – vintage to modern. With a potent water-resistant rust inhibitor this oil is specifically developed to protect internal and external metal parts from rust and corrosion plus fishing reels and other precision mechanisms. The product will not harden or become rancid giving extra-long service. Witham Gun Oil flows freely, from a fine mist aerosol.

Witham Biodegradable Gun Oil

Witham Biodegradable Gun Oil is made with lanolin oil, derived from sheep's wool and is a powerful natural lubricator, water repellent and corrosion protector.

Reviewed as "Nature's Secret Weapon" it forms a long-lasting barrier, and gives outstanding rust protection and wood preserving qualities, yet, unlike other gun oils is completely biodegradable and environmentally sensitive. It offers powerful protection to all conventional metals, wood stocks, plus gold and silver inlays and suited to all types of sporting guns – vintage to modern and helps remove harmful deposits that can build up inside and impair the firing accuracy.

This is a non-carcinogenic, non-toxic alternative to existing oils and can be used for many other applications found within the workshop and home.

Always refer to the manufacturers instructions before using any lubricant or maintenance product on your gun.

GUN CLEANER

Witham Gun Barrel & Choke Cleaner

Designed to deliver unparalleled cleaning ability. An ultra-effective, blend of selected purging solvents which are highly effective for removing gun powder, lead, other metals, and plastic wad from cartridge residues. The cleaner removes such items from exposed and internal metal surfaces and displaces non-visible moisture from metal pores. Due to its unique solvent ratio & propellant mix, it is a quick, super-efficient and easy to use product which penetrates rapidly and flows freely, cleaning dirt and grime from the fine mist aerosol. This Gun Barrel & Choke cleaner is also specifically designed to dry slower to ensure it removes even the most stubborn deposits.

Always refer to the manufacturers instructions before using any lubricant or maintenance product on your gun.

GAME & PHEASANT FEEDERS

This 40 Litre Drum Feeder is used to store grain feed for pheasants and other game birds and also suitable for chickens.

It comes with a spiral metal spring feeder attachment and is popular with game keepers for use in the release pen and throughout the estate.

Available in standard blue or for a small additional charge, we offer the feeders already coated in our popular green pheasant feeder paint.

STANDARD BLUE

POPULAR PAINTED GREEN

Game & Pheasant Feeder Green Paint

A popular single pack synthetic paint which exhibits an extreme gloss finish combined with excellent usability and durability. Ideal for pheasant feeders and many other uses to help keep a more subtle or camouflaged effect in the field. Available in Aerosols, 1, 2.5 & 5 litres.

Benefits:

- Extreme high gloss finish (also available in matt and semi-gloss)
- Drying times: 2 – 4 hours
- Can be used on Metal, Wood, Concrete and Plastic
- Good resistance to chemicals

DON'T JUST TAKE OUR WORD FOR IT...

Steve Wilkinson from Wilkinson Brothers Ltd, a Lincolnshire Farmer and Game and Clay shoot enthusiast who has tried and assessed the new range said:

"I am impressed with the quality of these new products. Witham Gun Oil is easy to use and flows well from the can. It does not leave a sticky residue and keeps parts lubricated for a long time. It's a really nice gun oil that I'll continue to use to protect my guns."

John Lee, AAA registered, Pro Shot & Baretta World Champion who also runs a well renowned shooting school, has used the gun cleaner and commented:

"Witham's gun cleaner removed a surprising amount of grime from my gun and the aerosol was easy to use and managed to get to the hard-to-reach parts. A highly recommended product."

Tom Maplethorpe, Game shooter and Arable Farmer also explained:

"I used Witham's Prolan gun oil to protect my gun before a shoot and was impressed by its staying power and how long the water proofing lasted – even in the pouring rain. The lanolin is an outstanding natural protector which is equally as good as regular gun oil – but better for the environment."

Woodcare Paints & Coatings

Providing the very best in professional wood care, our unique range of products are designed to enhance and protect the beautiful appearance of wood. Our products can transform and prolong the look of outdoor spaces such as windows, doors, sheds, stables, barns, other outbuildings, fencing, gates, decking and much more...

EXTERIOR WOODCARE PROTECTION

Woco Water Based Top Coat

Our outstanding top coat gives a high sheen and protective coating and provides excellent overall weather resistance. It can be used on both exterior and interior woodwork and is based on a unique high quality acrylic dispersion, which gives an unbeatable finish. This popular and reliable top coat is ideal for window frames and doors, conservatories, cladding and outbuildings.

Benefits: Good weather resistance • Interior & exterior use • Easy to apply.

Available in a choice of 1, 2.5 & 5 litres.

Woco Timberlast Complete Wood Protector

Timberlast Wood Protector is an economical solvent based, ready to use wood treatment. It protects, colours and penetrates the timber and uses biocide preservers to prevent the decay and surface growth of moulds. It is ideal to decorate and protect sheds, fences, trellis, decking and any timber structures where a translucent colour and water repellent finish is required, whilst leaving the wood grain visible. It is harmless to plants when dry and uses UV resistant pigments.

Benefits: Contains waxes for water repellency • Flash point above 32°C
 • Prevents surface mould growth. • Available in an attractive range of translucent shades
 • Light Brown, Dark Brown, Clear, Red Cedar, Forest Green and available in a choice of 5 & 25 litres.

Woco Woodcote Exterior Wood Stain

This is an oil based, high solids, excellent exterior wood treatment. This wood stain comes in a choice of transparent or 19 different colours to help enhance woodwork of many types.

Benefits: Easy to apply • Enhances the texture of wood
• Excellent overall weather resistance.

Available in a choice of 1, 2.5 & 5 litres.

Woco Water Based Preserver

This is a product we highly recommend and is used as the first step in the preparation of wood restoration and decorating. A water based, quick drying treatment for both wet rot, dry rot, wood boring insects. A very low odour formulation which is ideally suited for enclosed and external use prior to coating with paint, varnish or sealer. It is compatible with our Stain Blocking Primer and outstanding top coat.

Benefits: Water based • No mixing (ready to use product) • Targets existing wood boring insects and rot
• Prevents new rot and insect infestation • Virtually odourless and non flammable • 4 hour re-entry period following treatment, subject to physical barrier until surfaces are dry. Available in a choice of 1, 2.5 & 5 litres.

Osmo UV Protection Oil Extra Clear Satin

Osmo UV-Protection Oil is a natural oil-based and microporous finish which does not crack, flake, peel or blister. Water and dirt resistant, moisture regulating and reduces wood swelling and shrinkage. Ideal for windows, doors, cladding, fencing and other vertically structured joinery to block the greying process of the wood.

Benefits: A professional grade, solvent-based, UV-resistant wood oil for exterior wood • Suitable for vertical wood surfaces that require protection from the sun's UV rays • Offers superb durability against weathering
• Contains biocides to protect wood against mould, algae and fungal attack • Helps to prevent swelling, shrinkage, splitting and warping of the timber • Will not crack, flake, peel or blister • Very easy to apply, maintain and renovate • Dries to a satin finish • High V.O.C.

Available in a choice of 750ml & 2.5 litres.

Osmo Clear Decking Oil

A Premium grade oil based for all hardwood and softwood decking. This product contains UV filters to protect and will enhance the natural beauty of the wood. Does not crack flake or peel, satin finish.

Benefits: Helps preserve the natural character of the wood decking • Safe for humans, animals and plants once dry • Highly water and dirt resistant • A Breathable product which reduces water logging, swelling and shrinkage • Microporous, penetrating finish which does not crack, peel or flake • No sanding necessary when topping up coating.

Available in 2.5 litres.

Dark Creocote

Available in "Nut Brown" Dark shade, Creocote is ideally suited to protect and improve the appearance of rough woods such as sheds, fences and barns and provides excellent surface water repellency, so restricting weather damage. Creocote can be used on a variety of exterior woods not only to protect and preserve but also to improve grain definition. The product exhibits the characteristic odour familiar to traditional creosote users, but is an oil-based effective substitute treatment for exterior woods developed as a safer, more environmentally friendly alternative.

Benefits: Creocote can be applied by either brush or spray, and can be used by the general public as well as the trade. Available in a choice of 4, 20 or large barrel 205 litre containers.

Exterior Paints

Our range of outstanding Exterior Paints are available in a variety of finishes including gloss and eggshell and can be used on brickwork, woodwork, metal, concrete or plastic. Ideal for vehicles, houses, outbuildings, stables, containers, garages and so much more.

Top Coats

Woco Supercote Enamel Gloss Paint

An extremely popular single pack synthetic paint which exhibits an extreme gloss finish combined with excellent usability and durability. This product has a wide range of uses, but is particularly suitable for machinery, vehicles for on highway and off-highway, industrial buildings plus interior and exterior metal and wooden cladding of industrial and domestic buildings.

Benefits: Extreme high gloss finish (also available in matt and semi-gloss finishes)

- Drying times: 2 – 4 hours
- Can be used on Metal, Wood, Concrete, Plastic etc.
- Good resistance to chemicals
- Can be used where force drying is required (up to 70°C).

Supercote colour fan available in a whole range of OEM, RAL, BS4800 and BS381c colours.

Black Bitumen Solution

A general purpose waterproofing coating for application to iron, steel, weathered galvanise and concrete. Turns matt on prolonged exposure to UV light.

Benefits: Withstands temperatures up to 75°C • Apply by brush, but can be sprayed or dipped.

Exterior Masonry Finish - High Build

Woco Exterior Masonry Finish is a premium quality, pliolite solvent-based paint formulated for exterior use on cement rendering, rough cast, brick and concrete. It provides a smooth matt finish that has excellent adhesion to previously painted and suitably sealed surfaces. The pliolite resin provides a strong protection against severe weather conditions and erosion.

Benefits: Does not blister, flake, chalk, stain or discolour and is resistant to mildew • Non-oxidising and therefore remains flexible • Retains a fresh and pleasing flat finish as dirt is washed off by heavy rain • Expands and contracts with changing temperatures • Resists exposure to ultra-violet light.

Exterior Eggshell Masonry Finish

A product designed to give a tough, durable coating on a wide range of surfaces, including cement render, concrete, brickwork, asbestos, fibre cement sheeting and plasters.

Benefits: A tough, durable coat • Allows the substrate to breathe • High degree of resistance to washing and alkali • Easy to apply.

Woco Chlorinated Rubber Paint

An air drying, single pack system resistant to a wide range of chemicals, including acids, alkalis, oxidising agents, inorganic salts, moist gases, sewage and mineral oil. It is ideally suited for application to brickwork, slate roofs, steel, chemical storage tanks, bridges, marine equipment, swimming pool surrounding walls, floors and ceilings, sewage tanks etc. Ideal for veterinary clinics, milking parlours, stables, kennels and catteries and can be used in ornamental ponds and pond features.

Benefits: High chemical and abrasion resistance • Resists mould and fungus growth • Provides a high level of gloss.

Primer

Supercote Primer Undercoat

The ideal, all round primer and undercoat specifically designed for use with our Supercote Enamel Gloss top coat. Suitable for use on ferrous metal, and many other surfaces.

Benefits: Contains Zinc Phosphate for corrosion protection of the steelwork • Eggshell finish to improve gloss hold up of Supercote enamel gloss paint • Flash point above 32°C • Can be used where force drying is required (up to 70°C) • Available in a choice of 5 colours: White, Buff, Pale Grey, Mid Grey and Red Oxide.

BARN PAINT

High Quality Water Based Paint

A Stroke of Genius

Woco Barn Paint

Woco Barn Paint provides excellent protection and improved appearance to a huge variety of applications, for businesses, homes and gardens. This remarkable low-toxic, water based paint can be applied straight onto previously painted surfaces. Made from a unique acrylic resin system, which is low odour and safe to use around animals and people, our Barn Paint offers a tough, durable, microporous protective coating, with excellent colour retention. Ideal for Gates & fences, barns, stables, outbuildings, timber or metal cladding, sheds, buildings, concrete, brickwork, metalwork, plastics, galvanised surfaces and so much more

Benefits: Water Based, with low odour and non toxic properties • Product can be applied straight onto previous painted surfaces • Made from an acrylic resin system our Barn Paint offers a tough durable microporous protective coating with excellent colour retention • Flexible with the substrate, it reduces flaking and blistering providing a long lasting coverage • Exhibits fast drying and low odour properties.

Available in a range of popular colours:

CLEY WHITE

SUFFOLK BLACK

GULL GREY

STAITHE GREY

BLAKENEY GREY

SCOLT STONE

SAMPHIRE GREEN

THORNHAM GREEN

BURNHAM GREEN

SEA FOAM

HARBOUR BLUE

ALDEBURGH BLUE

SOUTHWOLD BLUSH

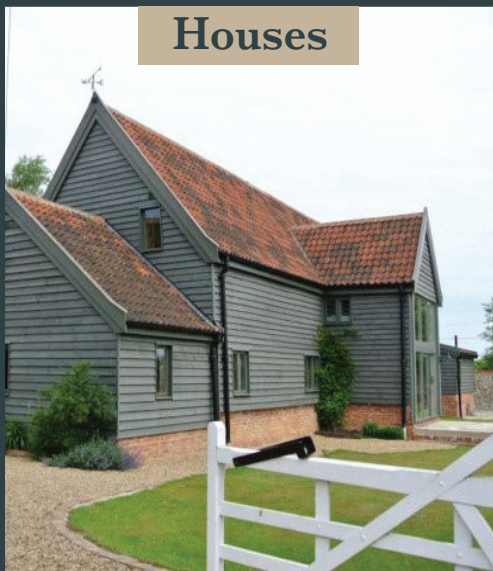

Available in
5 Litres &
250ml
tester pots

Our low-odour, non-toxic Barn Paint provides excellent protection and helps transform:

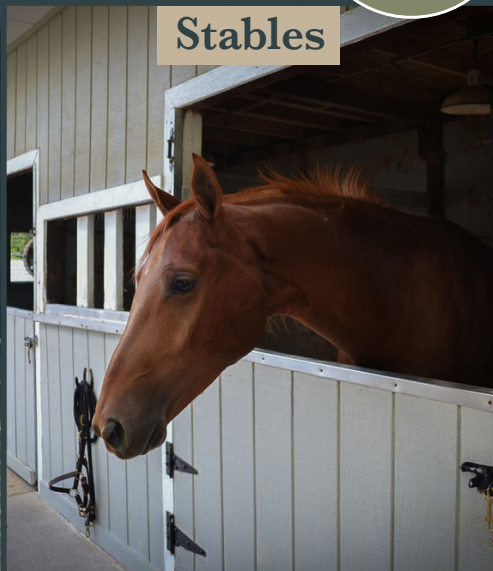

Houses

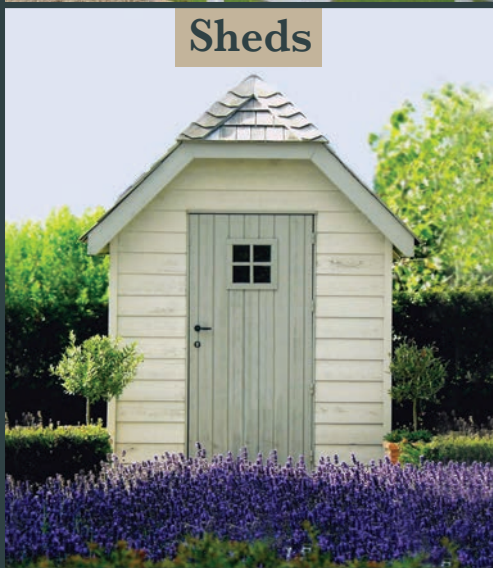

Gates

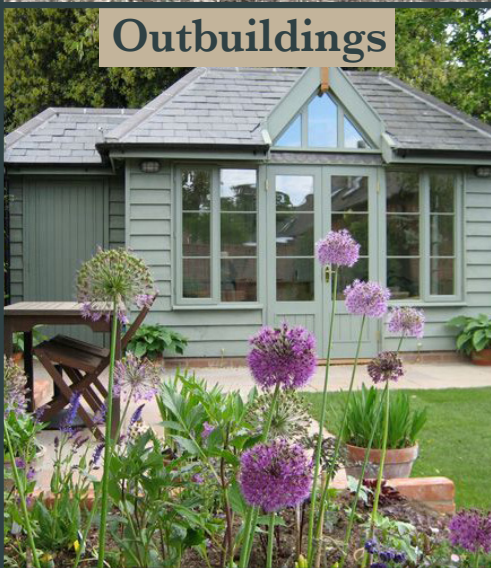

Stables

Sheds

Outbuildings

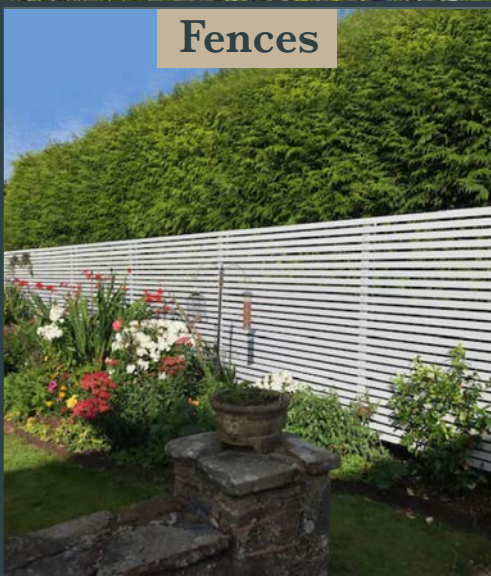

Barns

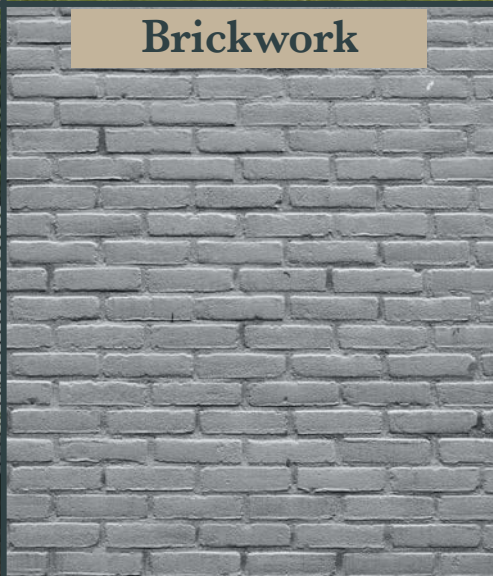

Metalwork

Fences

Brickwork

What our customers say:

"Fantastic! We have used this at home on all our cladding, workshop and outdoor bar area and its provides such a great finish. So easy to use and highly recommended." A McIntyre

"Great quality, its really transformed my workshops. Definitely would recommend to anyone." Tom Steven

Interior Paints

Keeping up appearances is important and a lick of good paint can help transform a house into a home or a shop or business into somewhere that customers will want to visit. That is why we think it's important to be able to offer a choice of decorative paint products from right across the marketplace, along with all the tools and equipment to help you create the look, quality finish and ambience you wish to achieve.

Woco Brushstrokes Emulsion

Woco Emulsion is a high quality, multi-purpose contract emulsion formulated to provide a full bodied, high opacity, even coverage and a long-lasting finish for use on all interior walls and ceilings. This water-based paint is available in matt, scrubbable matt, silk, mid sheen and acrylic eggshell finishes. Comes in white or magnolia as standard, other colours are easily made to order with our free colour matching service.

Interior Woodwork Paints

When it comes to looking after your interior wooden surfaces, our outstanding wood paint range has it covered! Available in water-based and oil-based formulas, and both are available in 3 popular finishes, satin, eggshell and gloss.

Ideal for all interior wooden surfaces including skirting boards, door frames, handrails and so much more.

Free Colour Matching Service

We offer a popular, free paint colour matching service which gives you the chance to create the exact colour you need without extra cost! With technical support all the way our speedy delivery service will also make sure to don't have to wait long to get started. This service is available for both woodwork and emulsion paints.

Please contact your nearest depot for further information or to place an order.

Fenwick & Tilbrook Range

Fenwick and Tilbrook offer a stunning, made-to-order range of truly high-quality paints. Taking inspiration from the natural world around us, their paints are made using the finest ingredients and are available in a number of different finishes. All of their products are manufactured in the UK, and their packaging is fully recyclable.

This range is water-based with very low VOC, and is described as highly durable, with an extraordinary depth of colour, whilst being easy to apply and offering great coverage. With 120 fantastic colours in their standard range, Fenwick and Tilbrook's paint is 'self-priming', easy to apply, fast-drying and is manufactured to the highest possible environmental standards. Please call us to arrange sample pots, colour cards and a quick delivery of your order.

Crown Elle Decoration Range - Style Meets Substance

Elle Decoration by Crown Paints is a premium, durable interior emulsion offering the perfect flat matt finish with endless protection for walls and woodwork. Developed with 200 years of colour, passion and heritage, each tin carries the quality hallmark of Crown Paints' unique Breatheasy® formulation, which means you can be back in the room almost immediately. Not only that, but this hard wearing formulation is 200 times tougher than regular emulsion, making it highly durable and scrubbable.

Explore 60 different colours from 6 distinct colour ranges, and transform your internal spaces with our easy ordering, prompt delivery and expert, friendly advice online or at the end of the phone.

Floor Paints

WE'VE GOT IT COVERED...

Manufactured to give highly reliable products for workshop floors, showrooms, parking bays, factory floors, dairies, stables, kennels, veterinary clinics, tennis courts, offices and so much more...

KOVERFLOR TYPE B CHLORINATED RUBBER FLOOR PAINT

This rubber based floor paint is designed for strong alkaline surfaces, such as new concrete floor, or where a high degree of chemical resistance is required. Koverflor Type B can help protect floors with a high resistance from chemicals such as acids, petrol, lubricants and urine.

This extremely robust paint is ideal for use in chemical plants, water works, sewage installation, milking parlours, canteens, dairies, workshops, stables, kennels and farms.

BENEFITS

- Extremely good chemical resistance
- Extremely high level of abrasion resistance
- Tolerant to aggressive cleaning methods

EASY TO APPLY
APPLICATION METHODS

AVAILABLE IN A RANGE OF 7 STANDARD
COLOURS PLUS BESPOKE ORDERS ON REQUEST

KOVERFLOR TYPE F POLYURETHANE FLOOR PAINT

Koverflor Type F is an outstanding polyurethane based, quick drying, single pack floor paint. It gives a tough abrasion resistance finish and can be applied to clean, dry mature concrete, brickwork, quarry tiles, stone, wood and linoleum.

This oil and petrol resisting paint prevents cement based floors from 'dusting up' and comes highly recommend for many businesses. It's especially used in garage workshops, showrooms, offices, corridors and high volume pedestrian traffic areas that are subject to hard wear.

BENEFITS

- Based on lead free pigments better for the environment and applicator
- Can be applied to concrete, brickwork, blasted steel and wood
- Formulated to give a highly durable finish

KOVERFLOR TYPE D EPOXY FLOOR PAINT

This ever popular product gives an outstanding hardness and abrasion resistant coating. Designed to be resistant to a wide range of chemicals, detergents, minerals, vegetable oils and a large majority of solvents. Koverflor Type D can be applied on newly laid and mature concrete, quarry tiles and paving stones.

BENEFITS

- Iso-cyanate free better for the environment and applicator
- Can be applied to concrete, brickwork, blasted steel and wood to give a highly durable finish
- Exceptional chemical resistance

Useful Cleaning Products

Vehicle Cleaning

Traffic Film Removers

Our Gold top quality TFR not only cleans off dirt, grease and road grime easily but also leaves vehicles with a high gloss shiny finish. Suitable for use on all vehicles, and types of paint, this is our best-selling vehicle cleaner.

Our General Purpose TFR is used in power wash sprayers and high pressure cleaning equipment. This special detergent is diluted to remove stubborn dirt, traffic film and road coatings from all vehicles.

Available in 25 Litres

All Seasons Concentrated Screenwash

Our excellent All Seasons Screenwash is a concentrated high power windscreen washer additive. It quickly removes dirt, grime & insect deposits from windscreens, leaving a bright streak-free finish.

When used neat, All Seasons Screenwash also helps prevent the washer bottle contents from freezing.

Available in 5 Litres.

Hand Cleaning

Hand Sanitiser (Box Of 12)

Witham's Hand Sanitiser is a popular choice for customers as it does not leave a sticky residue on your hands and yet is fully effective. Long lasting and great value, it comes in handy 250ml bottles, with flip closing lids and conforms to the World Health Organisation's recommended standards.

Available in boxes of 12 – this hand sanitiser is ideal for around the estate, in the car, at work and all your family's needs.

Professional QualKleen Hand Cleaner

Qualkleen Heavy-Duty Hand Cleaner contains natural orange oil, pumice and esters.

Designed to remove the most ingrained oils, greases, paints, inks, tar, general dirt and grime.

The pumice and esters give superior performance, coupled with moisturisers and an orange fragrance to leave the hands feeling fresh and clean.

Available in 3 pack sizes 1, 4 and 5 Ltrs.

Moisturising QualCare Hand Cleaner

QualCare Is A High Quality, White Pearlised Hand Soap with added conditioners, pleasantly perfumed and kind to hands. Ideal for wash rooms, work or home.

We also offer a handy 1 Litre option with built in pump to help keep your wash rooms clean and tidy. QualHand wall dispensers & Pumps available on request.

Available in 3 pack sizes 1, 4 & 5 Litres

Floor Cleaning

Biodegradable Floor Cleaner

A heavy-duty, fast-acting, biodegradable liquid floor degreaser detergent. This product contains synergistic blend of soil suspending agents and wetting agents.

The ultra powerful emulsifying action of Witham Floor Universal Cleaner is specifically designed for cleaning all hard ceramic surfaces including walls and floors. Available in 25 Litres.

WITHAM GUN OIL

High Quality Precision Lubrication & Protection

Witham Biodegradable Gun Oil

Witham Gun Barrel & Choke Cleaner

A collection of gun cleaning supplies is arranged on a dark wooden surface. On the left, the wooden stock and silver metal receiver of a rifle are visible. In the center, there is a small, dark, textured patch and a long, thin cleaning brush with a wooden handle and a metal ferrule. To the right of the patch are three more cleaning brushes of varying sizes, all with wooden handles and metal ferrules. On the far right is a tall, green aerosol can of 'witham's GUN BARREL & CHAMBER CLEANER'. The can features a logo with a mountain and the text 'ESTATE RANGE' and 'witham's'. Below the logo, it says 'GUN BARREL & CHAMBER CLEANER' and 'For Cleaning, Rusting, Pitting, Scale, Lead, and Other Deposits from Gun Barrels and Chambers'. At the bottom of the can, it says '100% Solvent Free, Non-Toxic and Non-Hazardous'.
